## PROJECTS

**Order Me This** | <https://github.com/melperez19/Project-3--Order-Me-This-App>

My Role

Deployed version found at <https://powerful-journey-65247.herokuapp.com/>

User Authentication

*An ordering application that makes organizing event runs much easier. Created as a group collaboration.*

- Guests are invited to sign up and log in to start creating events such as lunch runs, office supply orders, etc.
- Tools - React.js, React-Reveal, Context API, EmailJS, AgGrid, Material-UI, MDBReact, Cookie-Sessions, MomentJS

**MongoDB Article-Scraper** | <https://github.com/melperez19/MongoDB-Article-Scraper>

My Role

Deployed version found at <https://mongodb-article-scraper.herokuapp.com/>

Full Stack Development

*An app that scrapes articles from the GreenMedInfo website and lets users save articles and leave comments.*

- Scrapes articles by clicking the "Scrape Articles" button. Once articles are loaded, you can read the full article by clicking the link in each article's panel and save articles by clicking the "Save Article" button.
- Tools - NodeJS, ExpressJS, HandlebarsJS, MongoDB, Mongoose, Bootstrap and CSS, cheerio, axios, morgan

**Bamazon** | <https://github.com/melperez19/Bamazon>

My Role

Video Demo found at <https://www.youtube.com/watch?v=RWs7zeapTjM&feature=youtu.be>

Back End Development

*An Amazon-Like storefront application that takes in orders from customers and depletes stock from the store's inventory.*

- A manager specific interface was created as well to allow the viewing of all inventory, low inventory, adding more stock, and adding new products. Every edit is automatically updated to the Bamazon database.
- Tools - Node.js and MySQL

---

## EDUCATION

**University of Arizona**, The Live Online Coding Bootcamp – Certification, Full Stack Web Development

Credentials found at <http://t.cred.ly/l/37e61ede-fa32-4419-8ad6-eea43992c25b>

**Georgian Court University**, Lakewood, New Jersey – B.A. in Art and Art History

---

## WORK EXPERIENCE

**Email Builder** – Apex Systems– Remote Contract

**2019- Present**

Create email campaigns for Caesars Entertainment using HTML, CSS, and AMPscript within the Salesforce Marketing Cloud.

- Create visually appealing email templates by looking at Word files provided by Caesars Entertainment.
- Ensure that all links direct to the appropriate sites and that Company guidelines are followed within the emails.
- Communicate with management to handle specific requests on email builds via email and phone all while on a 3 hour time zone difference as the contract is based in Las Vegas, Nevada.

**Digital Finishing Operator**– Deluxe Corporation– Mountain Lakes, NJ

**2015- 2019**

*Knowledgeable in Banner Production, Saddle-Stitch and Digital Proof Finishing, and CTP Imaging for PsPrint (a Deluxe Corporation company).*

- Promoted after excelling in handling multiple priorities and obtained a Bronze LEAN Champion Certification in 2018
- Created manual documentation for banner printing and CTP processes while training other employees.
- Communicated with dealers to handle specific requests on jobs via email and also opened Central Station Incident Tickets for system errors.

**Archive Generalist and Image Editor**– Metaverse Corporation– South Brunswick, NJ

**2011- 2015**

*Archived and maintained art prints being sold via Metaverse's main project, Fulcrumgallery.com, which is a successful online art and framing company*

- Prepared data for alphabetic and numeric computer entry and combined files to eliminate the duplication of data.
- Edited scanned images of art prints using Adobe Photoshop and uploaded to the company website with accuracy.
- Kept a student mentality, always learning to become a more versatile employee.
